APPLICATION FOR UNDERGRADUATE RESEARCH EXPERIENCE

Name:_________________________________  Date:___________________________
Major:_________________________________  Year at OU:______________________
Phone:____________________________  Email:______________________________

Why do you want to work in this research lab?

Which of the research areas listed on the faculty web site would you prefer to explore?

  Curriculum Innovations  Lab Curriculum Development  Electrochemistry

What relevant experience do you have pertaining to this job?

Do you see yourself pursuing a career in science?

Other future career goals.

Can you commit to working 8-15 hours each week for a year? Summer?

Please list the name of two references that I can contact (including their contact information) regarding your application.

Reference 1  Reference 2

This application is for a volunteer position to gain research and laboratory/technical experience and as such is not a paid position. If the applicant is a major in the Department of Chemistry & Biochemistry, there may be an opportunity to also get independent study or senior thesis credit.

Return the completed form to the mailbox of Dr. Mark Morvant in the chemistry main office. If selected, you will be contacted for an interview.
