Dear Prof. Millhouse:

The faculty of Education of the Potchefstroom University for CHE thank you for your services and assistance teaching our post graduate (B.Ed.) and fourth year students. Because one of the biggest challenges for education in South Africa lies in the field of multicultural/cultural diversity, your work in this area has been very valuable to us during this period of transformation.

Ms S du Toit has also commented about your work with the research group. She wishes that I should thank you for your assistance in their project as well. We are pleased that you have agreed to continue an aspect of the research namely, determining how teacher training for multicultural education is handled in developed and developing countries.

I also wish to thank you for your insightful and active participation in the Seminar on Postmodernism and the North-West Guidance and Life Skills Conference. I have received only good words about both.

Finally as a small reminder of your visit to the Potchefstroomse University for CHE, the faculty and I would like to present you with a CD of the play "Alabama" by the Potchefstroomse Studentegeselskap, 1996 and "Jericho" by the Potchefstroomse Univeristy Choir.

We trust that you will remember this University every time you listen to the music.

Best wishes,

(Prof.) J. L. van der Walt
Dean
